

# An Optimal Solution for the Clinical Trial Data Management for your Organization

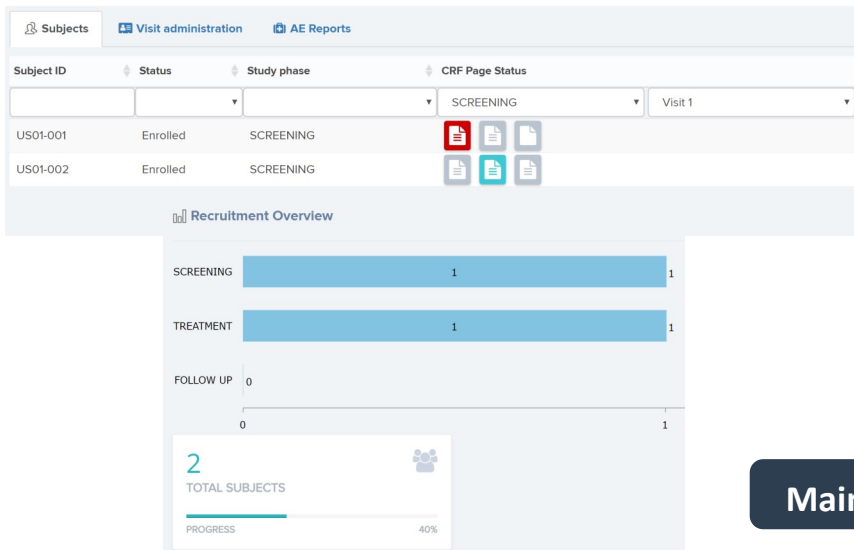

JAZZ CLINICAL is an integrated, fully-validated and web based Electronic Data Capture (EDC) and Study Database application and infrastructure, aimed for collection, review, coding and reporting of clinical study data. Allows participants to perform data entry, query management and screen approval, remotely, using an internet network to communicate with the central study database.

JAZZ CLINICAL offers the possibility to operate in a multilingual interface (English, Spanish & Portuguese)

Complies with data reliability and protection standards ruled by 21 CFR Part 11

Supported by experienced professionals in data management and through a 24/7 Helpdesk for site's staff and monitors

## Main Capabilities

<b>Study database</b>	<ul style="list-style-type: none"> <li>◆ Protocol EDC / eCRF design</li> <li>◆ Database / Edit checks setup and validation</li> </ul>
<b>EDC</b>	<ul style="list-style-type: none"> <li>◆ User friendly interface</li> <li>◆ Audit trail</li> <li>◆ Multilingual support: English, Spanish &amp; Portuguese</li> <li>◆ Verification by study monitor and approval of eCRF screens</li> </ul>
<b>Data management</b>	<ul style="list-style-type: none"> <li>◆ Query management module, for an easier &amp; faster data cleaning</li> <li>◆ Quality control through clinical data listings</li> <li>◆ Medical terms (MedDRA) and drugs coding</li> </ul>
<b>IWRS / Drug supply</b>	<ul style="list-style-type: none"> <li>◆ Drug supply management</li> <li>◆ Randomization / IWRS</li> </ul>
<b>Reports</b>	<ul style="list-style-type: none"> <li>◆ Dashboard with “real time” data on enrollment and data completion/cleaning progression (at study, site &amp; patient level)</li> </ul>
